Behavioral Assessment ABA Checklist

Access to the right tools can significantly enhance the effectiveness of your ABA practice. Below are three free, downloadable resources designed to streamline your workflow, improve data collection, and ensure consistent implementation of behavior analysis strategies.

Whether you're just starting out or refining an established program, these professional-grade templates provide essential support for every step of the ABA process—from intake to assessment and behavior tracking.

Use this checklist to ensure all critical components of a behavioral assessment are covered:

Checklist	Done?
Review referral concerns and client background	
Conduct structured observations	
Interview caregivers/teachers	
Administer skill assessments (e.g., VB-MAPP, ABLIS-R)	
Complete a Functional Behavior Assessment (FBA)	
Identify antecedents, behaviors, and consequences	
Determine behavioral function(s)	
Develop behavior intervention recommendations	
Draft assessment summary report
